Finn Bartsch – Curriculum Vitae

E-Mail: f.bartsch@math.ru.nl
Website: f-bartsch.github.io
Mailing address: PO Box 9010, 6500 GL Nijmegen, The Netherlands
Visiting address: Office 03.724, Huygens building, Heyendaalseweg 135, 6525 AJ Nijmegen

Positions

Postdoc, 2026-
Leibniz Universität Hannover; Institut für Algebra, Zahlentheorie und Diskrete Mathematik

Education

PhD Mathematics, obtained in September 2026, *cum laude*
Radboud-Universiteit Nijmegen, 2022-2026
Thesis advisor: Ariyan Javanpeykar
Thesis title: *C-pairs, Campana-special varieties, and potential density questions*

M. Sc. Mathematics, obtained in September 2022, *mit Auszeichnung*
Johannes Gutenberg-Universität Mainz, 2020-2022
Thesis advisor: Ariyan Javanpeykar
Thesis title: *Varieties with many rational points over function fields*

B. Sc. Mathematics, obtained in June 2020
Johannes Gutenberg-Universität Mainz, 2017-2020
Thesis advisor: Manuel Blickle
Thesis title: *Delta-Ringe*

Papers

12. *Weakly special varieties, Campana stacks, and remarks on Orbifold Mordell* (joint with Ariyan Javanpeykar)
    Preprint, submitted (2026).

11. *The map to the orbifold base need not be an orbifold map*
    Preprint, submitted (2026).

10. *The theorem of Maehara-Severi for maps of general type* (joint with Ariyan Javanpeykar and Erwan Rousseau)
    Preprint, submitted (2026).

9. *More counterexamples to the Arithmetic Puncturing Problem*
   Preprint, submitted (2025).

8. *The Kobayashi pseudometric in the presence of log-terminal singularities*
   Proceedings of the American Mathematical Society, Volume 154, Number 5, pp. 2141-2144 (2026).

7. *On the finiteness of maps into simple abelian varieties satisfying certain tangency conditions*
   Bulletin of the London Mathematical Society, Volume 57(9), pp. 2723-2730 (2025).

6. *New examples of geometrically special varieties: K3 surfaces, Enriques surfaces, and algebraic groups*
   manuscripta mathematica, Volume 177, article number 31 (2026).

5. *Symmetric products and puncturing Campana-special varieties* (joint with Ariyan Javanpeykar and Aaron Levin)
   Proceedings of the London Mathematical Society, Volume 131, Issue 6 (2025).

4. *The Weakly Special Conjecture contradicts Orbifold Mordell, and hence the abc conjecture* (joint with Frédéric Campana, Ariyan Javanpeykar, and Olivier Wittenberg)
   Journal of the European Mathematical Society (2026).

3. *Parshin's method and the geometric Bombieri–Lang conjecture* (joint with Ariyan Javanpeykar)
   Indagationes Mathematicae, Volume 37, Issue 1 (Special issue dedicated to the memory of Jacob Murre), pp. 271-280 (2026).

2. *Weakly-special threefolds and non-density of rational points* (joint with Ariyan Javanpeykar and Erwan Rousseau)
   Journal of the London Mathematical Society, Volume 112, Issue 5 (2025).

1. *Kobayashi–Ochiai's finiteness theorem for orbifold pairs of general type* (joint with Ariyan Javanpeykar)
   Journal of the Institute of Mathematics of Jussieu, Volume 23(6), pp. 2713-2732 (2024).

Teaching

Radboud-Universiteit Nijmegen

TA for Riemann Surfaces, Mastermath Course (Spring 2026)
TA for Riemann Surfaces, Mastermath Course (Spring 2025)
TA for Sheaves and Geometry (Autumn 2024)
TA for Riemann Surfaces, Mastermath Course (Spring 2024)
TA for Galois Theory (Autumn 2023)
TA for Riemann Surfaces, Mastermath Course (Spring 2023)

Johannes Gutenberg-Universität Mainz

TA for Algebraische Kurven und Riemannsche Flächen (Summer 2022)
TA for Grundlagen der Numerik (Summer 2022)
TA for Zahlentheorie (Winter 2021/22)
TA for Mathematik für Physiker 3a (Summer 2021)
TA for Mathematik für Physiker 2b (Winter 2019/20)

Talks

Research talks

Finiteness theorems for maps of general type
Geometry Seminar, Nijmegen (15th September 2026)

Weakly special varieties and Campana points
Intercity Number Theory Seminar, Leiden. (26th June 2026)

Finiteness theorems for maps of general type
Joint Seminar on Complex Algebraic Geometry and Complex Analysis, Wuppertal. (8th May 2026)

Weakly special varieties and Campana points
Lodha Mathematical Sciences Institute, Mumbai. (9th April 2026)

The Arithmetic Puncturing Problem
Geometry, arithmetic & cohomology of higher dimensional varieties, Bologna. (13th January 2026)

Symmetric products and puncturing Campana-special varieties
Séminaire Géométrie et Topologie, Brest. (26th September 2025)

Symmetric products and puncturing Campana-special varieties
Algebraic Geometry Seminar, Utrecht. (12th June 2025)

Symmetric products and puncturing Campana-special varieties
Arithmetic Geometry in Cabourg. (15th May 2025)

Symmetric products and puncturing Campana-special varieties
Diophantine and Rationality Problems, Sofia. (11th March 2025)

Kobayashi–Ochiai's finiteness theorem for Campana pairs of general type
DIAMANT Symposium Spring 2024, Utrecht. (11th April 2024)

Learning seminar talks

Fano threefolds
Reading seminar on the Geometric Manin Conjecture in Utrecht. (16th December 2025)

Valuative ideals
Intercity Seminar on Resolution of Singularities. (4th April 2025)

Degeneration of the Hodge–de Rham spectral sequence
Algebraic Geometry Seminar in Nijmegen. (18th February 2025)

The stable reduction theorem for curves
Algebraic Geometry Seminar in Nijmegen. (19th November 2024)

Points of low degree on smooth projective curves
Algebraic Geometry Seminar in Nijmegen. (22nd October 2024)

Parshin's proof of Bombieri–Lang for subvarieties of abelian varieties
Seminar on Lang's Conjectures 2023 in Nijmegen. (1st December 2023)

The finiteness theorem of Kobayashi–Ochiai
Seminar on Lang's Conjectures 2023 in Nijmegen. (15th September 2023)
